

HOME THEATER SURGE PROTECTION SOLUTIONS

Power protection is crucial for protecting home theater systems. Surges not only destroy expensive electronics, but can also cause gradual deterioration of electronic components.

CyberPower Systems, Inc. manufactures a line of surge protectors that provide superior surge protection specifically designed for home theater applications. Our feature-rich product line provides surge protection for sensitive digital equipment covering all of the external lines for a surge including AC input, cable, telephone, broadband and ethernet network surge protection.

CyberPower also takes surge protection one step further by offering home theater surge protection with Signal Scrubber technology which will filter radio frequency interference from broadcast stations, video and audio components and other high-wattage household appliances. This power contamination will appear as snow and static on video displays and cracks and pops on audio equipment. CyberPower Signal Scrubbers actually improve the signals to your audio and video equipment giving you true digital picture and sound.

Built upon the premise of truly understanding customer needs, CyberPower provides high-quality solutions that exceed expectations.

Model	1090	1010HT	1030HT
Joule Rating	3000 Joules	4200 Joules	6000 Joules
Number of Outlets	10	10	10
Transformer Spaced Outlets	4	10	4
Input Power Cord Length	6'	7'	8'
Gold Coaxial/Satellite Protection	2 sets	3 sets	3 sets
Maximum Peak Current	150,000 Amps	210,000 Amps	275,000 Amps
H-N Line	60,000 Amps	110,000 Amps	90,000 Amps
H-G Line	45,000 Amps	20,000 Amps	90,000 Amps
N-G Line	45,000 Amps	20,000 Amps	75,000 Amps
Maximum Surge Voltage	6,000 Volts	6,000 Volts	6,000 Volts
Response Time	< 1 Nanosecond	< 1 Nanosecond	< 1 Nanosecond
Clamping Voltage	330 Volts	330 Volts	330 Volts
EMI/RFI Filtration	150KHz to 100MHz	100KHz to 100MHz	100KHz to 100MHz
Attenuation	Up to 58dB	Up to 50dB	Up to 58dB
Circuit Breaker	15 Amp	15 Amp	15 Amp
Indicator Lights	Power Protection / Ground	Power Protection / Ground	Power Protection / Ground Light / Switched On / Current Usage / Input Voltage
Warranty	Lifetime Warranty	Lifetime Warranty	Lifetime Warranty
Conformance Approvals	UL 1449, UL 497A	UL 1449, UL 497A	UL 1449, UL 497A
Connected Equipment Guarantee	\$200,000	\$250,000	\$400,000
RJ11 Protection (Telephone)	YES	YES	YES
RJ45 Protection (Network)	YES	YES	YES
Audible Indicators	No	YES - Overload	YES - Overload
Labeled Outlets	No	YES	YES
Signal Scrubber Technology™	No	YES	YES
Hides Cords	No	No	YES

Sharper Picture, Crisper Sound, Best Protection
