

Model #: CP485SL

UPC: 649532004850

MSRP: \$46.99

The CP485SL Standby Uninterruptible Power Supply (UPS) is perfect power protection for individuals running a stand-alone PC in their home, or office.

It includes PowerPanel PE™ Power Management software, which monitors the vitals of the battery backup system and will safely shutdown your computer in case of a power outage. Composite integrated circuitry offers advanced lightning protection and also guards against surges, spikes, sags, brownouts and other power abnormalities.

This rugged unit is equipped with an RJ11 port, which protects against surges from phone or network disruptions. The small footprint design is ideal for horizontal or vertical placement, and is even designed for wall-mountability. The unit is also perfect for protecting other electronics, such as: monitors, printers, scanners, speakers, fax machines, CD/DVD players, and iPods.

- EMI/RFI - Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or "humming" that occurs over telephone lines or stereo electronics.
- Transformer-spaced Outlets - Widely spaced outlets allow you to conveniently add large transformer-based plugs without compromising the utility of other outlets.
- USB Connectivity - HID compliant USB port enables full integration with built-in power management and auto shutdown features of Windows, Linux and Mac OS X.
- PowerPanel PE™ Smart Management Software – In event of a power outage, PowerPanel PE will not only save your open files and will also "Hibernate" your PC to increase the run-time on the UPS unit. PowerPanel is quickly and easily installed on any Windows-based PC and is designed to utilize minimal system resources. Diagnostic screens give immediate visuals of the UPS's status, and also include the following features: Silent operation mode, configurable system notifications, automatic self tests, adjustable high/low voltage warnings, event/data logging, and scheduled shutdowns.
- LED Indicators - LED status lights indicate Power-On and wiring faults.
- Audible Alarms - Audible tones identify when the unit is running off battery power, unit overloads and low battery.
- Convenient Mounting – Multiple mounting options: horizontal, vertical, cabinet, and wall.
- Resettable Circuit Breaker - Convenient unit reset switch in case of an overload.
- 3-year Warranty - CyberPower will replace damaged units if within 3 years of purchase date. We stand behind our products and guarantee quality. CyberPower also offers a #1 rated technical support team that will assist you with product, installation, or warranty concerns --- Free of Charge!
- ISO & Safety Certifications - All CyberPower's manufacturing facilities are ISO-9001 Quality Tested. Our products are also certified by the FCC, cUL, and UL.
- Windows Vista™ compatible - Our Power Management software has been fully tested and is compatible with Windows XP, and Vista.

Technical Specifications

General	
Model #	CP485SL
UPS Topology	Standby
Input	
Voltage	100 - 140V
Frequency	57 - 63Hz
Plug Type	NEMA 5-15P
Cord Length	6 ft
Output	
VA	485
Watts	260
Automatic Voltage Regulation	No
On Battery Waveform	Simulated Sine Wave
Outlets - Total	8
Outlets - Battery & Surge	4 x NEMA 5-15R
Outlets - Surge-Only	4 x NEMA 5-15R
Transfer Time	4 ms
Battery	
Runtime at Full-Load	2 Minutes
Runtime at Half-Load	9 Minutes
Battery Specification	1 x 12V/4.5Ah
Surge Protection and Filtering	
Surge Suppression	585 Joules
Phone / Ethernet RJ11 / RJ45	1 x RJ11 (One-in/Two-out)
Coax Protection RG6	None
Management & Communications	
Indicators	LED Indicators
USB Port	1 x Non-HID Compliant
Serial Port	1 x DB9
Software	PowerPanel Personal Edition
SNMP / HTTP Remote Monitoring	Not Available
Physical	
Dimensions (WxHxD)	10.75" x 6.25" x 3.25"
Weight	9.7 lbs.
Warranty	
Product Warranty	3-year warranty. Free Tech Support.
Connected Equipment Guarantee	Lifetime
CEG Amount	\$50,000
