CPS175PSU MOBIL POWER INVERTER

Offering household power on the go

The CyberPower 175 Power Inverter (CPS175PSU) converts power from your vehicle's 12V DC power outlet to simultaneously power up to three devices (175 watt peak) with its two household AC outlets and one 2.4-Amp USB port. Use the AC outlets to power portable electronics while you're traveling. The 2.4-Amp USB port quickly charges a tablet, smartphone or any other USB-powered device. The slim design makes it easy to carry and is a perfect power accessory for your next road trip.

Safety features such as a 15-Amp fuse, surge protection, and automatic shutdown protect your connected devices from power surges and automotive battery from power drain. The CyberPower 175, which comes with a two-foot power cord and a DC power plug, is ideal for powering mobile devices and office electronics while you're traveling.

A Two-Year Warranty ensures that this product has passed our highest quality standards in design, assembly, material and workmanship.
