Battery Back-up Systems with intelligence!

CyberPower's SL series of uninterruptible power systems are designed to bridge the gap between high-priced UPSs and surge suppressors.

Dependable, yet affordable, CyberPower uninterruptible power systems not only guard against surges, spikes, sags, brownouts and other power abnormalities, but also provide battery backup power to your computer system and valuable data during a power outage.

PowerPanel™ Software is included with each model. In the event of a power outage, PowerPanel™ Software automatically logs and saves all open files then shuts down the computer system in an intelligent and orderly manner.

- 1 - Battery Power / Surge Outlets
