

# CSP606T SURGE PROTECTOR

Protect home and office computers, electronics, and home theater equipment

The Professional Surge Protector CSP606T from CyberPower offers vital surge suppression for common home and office devices such as computers and electronics. It prevents spikes in energy caused by storms and electrical power surges and is ideal for safeguarding personal computers, phones/faxes/modems, and other consumer electronics. The CSP606T provides 1350 joules of protection and 6 surge-protected outlets. Data line protection occurs with RJ11 ports for telecommunication devices (phones, faxes, modems, and DSL lines).

Features of the CSP606T include automatic shutdown, data line protection, power cord (6 ft.), right-angle plug with 45° off-set, impact-resistant casing, metal oxide varistor (MOV) technology, and an EMI/RFI noise filter. The CSP606T comes with a Limited Lifetime Warranty and a Connected Equipment Guarantee.
