

MP18HO007 TWO OUTLET, USB WALL TAP TWO PACK

Easily add USB charging capability to standard wall outlets.

The CyberPower MP18HO007 Two Outlet Wall Tap Two Pack is ideal for charging your USB compatible devices in both the Home and Office. Each unit has 2 AC outlets, (2) 2.1A USB charging ports, and wall tap plug. The MP18HO007 is perfect for environments where USB charging is needed, but use of both outlets is a premium. The two (2) 2.1A USB charging ports can charge your mobile devices, converting a standard wall outlet into a USB charging station.

Typical Applications

- Mobile device charging
- Gaming systems
- Personal electronics
