### **PR3000LCDSL Smart App Sinewave UPS**

Offers significant energy savings, battery backup and surge protection.

The CyberPower Smart App Sinewave PR3000LCDSL mini-tower uninterruptible power supply (UPS) with LCD control panel and sine wave output is Active PFC compatible for safeguarding missioncritical servers, telecom equipment, VoIP and internetworking hardware that require seamless pure sine wave power.

The PR3000LCDSL uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without switching to battery power, which extends battery life. AVR is essential in areas where power fluctuations occur frequently.

This UPS is ENERGY STAR® qualified with patented GreenPower UPS™ Bypass circuitry to save on energy costs by reducing energy consumption and heat buildup.

A Three-Year Warranty ensures that this UPS has passed our highest quality standards in design, assembly, material or workmanship and further protection is offered by a \$375,000 Connected Equipment Guarantee.
