PPBE 3.2.2 Release Note

Features Improved

- User can change SNMP Agent Port number.
- Support Citrix XenServer 7.0
- Agent will record UPS status in status log when an event occurs.

Bugs Fixed

- Client failed to connect with power source in configuration in IE8 browser.
- In Center, the devices in Group could not be chosen in power configuration of infrastructure.
- Center failed to show device information in Power Equipment page.
- PPBE service crashed when there is another SNMP service installed.
- Center showed duplicated devices in device search.
- Center continued to shutdown host even when utility power recovers.
