

## **PowerPanel Personal v2.2.1 Release Note**

### **New Features**

- UPS hardware event logs are now available
- Added new language options. Spanish, Polish, and Czech languages were added to PowerPanel Personal

### **Feature Improvements**

- Updates to the descriptions used for the model numbers to make them easier to identify
- The update corrects an issue with specific event logs being sent out multiple times when they should only be sent once.

### **Install Details**

- PowerPanel Personal for Windows
  - File Name: ppp\_windows\_2\_2\_1
  - MD5: 33890CCA7A32B335CFAEA2D819C69CCC
