

PowerPanel Business v4.10.0 Release Note

New Feature

- New support for configuring power events and power supply directly from PPB Management for VMware vCenter / vApp / vSan

Feature Improvements

- Security updates were made to ensure continued safe operation
- Adds support to daisy chain environmental sensors on the Environment Sensor page (future product support)
- UI optimization to improve user experience

Fixes

- Resolves an issue that occurred when setting the startup delay in Power Restore
- Fixes a problem that occurred when setting the NCL Bank options (Turn Off Threshold / Turn Off Delay / Turn on Delay)
- Repairs an issue with the Output Voltage Upper Limit / Output Voltage Lower Limit during power failure conditions
- Other miscellaneous corrections
