

PowerPanel Personal v2.5.1 Release Note

Feature Improvements

- Tested and approved by Apple verification for installing on a device using Mac OS.
- Security updates were made to ensure continued safe operation.
- The online update procedure has been optimized.

Fixes

- Fixed an issue with communication between the host computer and UPS.
- Issues with energy reporting are resolved.
- Devices stay offline on PowerPanel Cloud
- Other minor updates/fixes implemented.

Other

Note: Older versions of PowerPanel Personal (v2.4.8 and older using .dmg file types) must be uninstalled before installing the new version v2.5.0.
