

PowerPanel Business v4.12.0 Release Note

New Feature

- The ability to make firmware updates to the RMCARD205, RMCARD400, ATS PDU, and connected PDUs was added as a new feature.
 - Note: This requires the addition of a PowerPanel Business license of 50 nodes or more to access the feature.
 - It is not available on the free version.
- A Debug log (operational log) was implemented.

Feature Improvements

- Updates were made to improve security.
- The event descriptions for the environmental sensor were updated.

Fixes

- Resolves an issue with reading temperature, humidity and uptime with the RMCARD400.
- Other minor fixes were completed.
