CONGRATULATIONS ON YOUR PURCHASE
Thank you for selecting the CyberPower MPV615P/MPV615S. This manual explains the features and operation of the MPV615P/MPV615S. Please take a few moments to read this manual.

SPECIFICATIONS
• Model Number: MPV615P
• Model Number: MPV615S
• Outlets: Standard Grounded Outlets (6)
• Outlets: Standard Grounded Outlets (6)
• Electrical Rating: 125 V/15 A/1875 W
• Electrical Rating: 125 V/15 A/1875 W
• Surge Protection: 1,560 Joules
• Surge Protection: 1,560 Joules
• UL Clamping Voltage: UL 1449 4th /600 V (L-N)
• UL Clamping Voltage: UL 1449 4th /600 V (L-N)
• Maximum Peak Current: 45,000 A
• Maximum Peak Current: 45,000 A
• AC Line Protected: L-N: 45,000 A
• AC Line Protected: L-N: 45,000 A
• Power Cord Length: 15 ft
• Power Cord Length: 15 ft
• Power Cord Length: 15 ft
• Power Cord Length: 15 ft
• Electrical Rating: 125 V/15 A/1875 W
• Electrical Rating: 125 V/15 A/1875 W
• Outlets: Standard Grounded Outlets (6)
• Outlets: Standard Grounded Outlets (6)
• Model Number: MPV615P
• Model Number: MPV615S

INSTALLATION INSTRUCTIONS
1. Use the screw hole on either end of the device for fixed mounting.
2. Use a slotted screwdriver to remove the knurled nut (a) on the return ground terminal (b) to allow insertion of the user supplied ground conductor (c) from the patient equipment grounding point (d). Refasten (hand-tighten plus a quarter turn) the knurled nut to secure the ground conductor in place.
3. Open the outlet covers (e). For safe operation, the outlet covers do not open easily. If the covers are difficult to open, use a slotted screwdriver to carefully open them by pushing the cover release towards the center of the cover. Insert the plugs of the authorized medical equipment (f).
4. Power the outlet strip.
   - For MPV615P, the green LED indicator will be illuminated when it is powered.
   - For MPV615S, the green LED indicator will be illuminated when the surge protection feature is working properly.

Note: Open outlet covers only as needed. Close unused outlet covers.

Note (For MPV615S): This device features an internal protection that will disconnect the surge protective component at the end of its useful life, but will maintain unprotected power to the load. If this situation is undesirable for the application, replace the device.

CAUTION
TO REDUCE THE RISK OF ELECTRIC SHOCK - Use only in dry locations and only indoors. Use only with duplex receptacle having center screw. Do not plug into another health care outlet assembly, a relocatable power tap, or an extension cord. Connect only AUTHORIZED medical equipment verified for safe touch and leakage current. DO NOT “daisy chain” surge protectors. DO NOT use with any aquarium equipment. DO NOT use if properly grounded outlets are not available. DO NOT install this device if there is less than 10 meters (30 feet) or more of wire between the electrical outlet and electrical service panel.

Not for Home Health Care Use.

WARNING: RISK OF DEATH OR SERIOUS INJURY. Only plug into a permanently installed branch circuit receptacle and use within the Patient Care Vicinity only when a protective earth grounding conductor also connects the Equipment Grounding (Protective Earth) Terminal to the Patient Equipment Grounding Point.

WARNING: After verifying the combined touch and leakage current secure the outlet covers closed. See installation instructions for tightening details.

WARNING: To reduce the risk of fire, electric shock, or injury to persons:
- Use this HCOA (Health Care Facility Outlet Assembly) only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
- Never operate this HCOA if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water.
Do not plug into any outlet power taps. Any such installation voids the warranty.

Who is providing this warranty, and what does it cover?
Cyber Power Systems (USA), Inc. ("CyberPower") provides this limited lifetime warranty. It only covers the original purchaser and ends if you no longer own the product. This warranty covers defects in materials and workmanship in the product under normal use and conditions. It also covers equipment connected to the product and damaged because of the failure of the product. This warranty covers the product and connected equipment for as long as you own the product.

What are some things this Warranty does not cover?
1. THIS WARRANTY DOES NOT COVER: ANY SOFTWARE THAT WE DAMAGE, THE HARDWARE THAT NEEDS TO BE REPLACED DUE TO THE FAILURE OF THE PRODUCT, OR ANY DATA THAT IS LOST AS A RESULT OF THE FAILURE. THIS WARRANTY DOES NOT COVER THE RESTORATION OF DATA OR RECORDS, OR THE REINSTALLATION OF SOFTWARE.
2. This warranty does not cover: misuse, modification, operation or storage outside of the environmental limits of the product or the equipment connected to it. It does not cover damage while in transit or in storage; if there has been improper operation or maintenance, or use with items not designed or intended for use with the product, such as laser printers, appliances, aquariums, medical, or life support devices, etc.

What are the other limitations?
The sole and exclusive remedies of the initial customer are those provided by this warranty.

1. This warranty does not apply unless the product and the connected equipment were connected to properly wired and grounded outlets (including compliance with electrical safety codes of the most current electrical code), without the use of any adapters or other connectors.
2. The product must have been plugged directly into the power source. The equipment connected to the product must be directly connected in the product, not “daisy chained” together in serial fashion with any extension cords, another product, or device similar to the product, surge suppressor, or power tap. Any such installation voids the warranty.
3. The product and connected equipment must have been used properly in a suitable environment, in conformance with any applicable license, instruction manual, or warnings.
4. The product must have been used at all times within the limitations on the product’s maximum rated wattage.

Where can I get more information?
Contact us at: Cyber Power Systems (USA), Inc.
